WORK EXPERIENCE

Software Engineer

GPG Consulting

June 2025 - Present

- Working as a full-stack engineer contributing to production systems across backend and frontend layers.
- Involved in API development, authentication flows, database interactions, and deployment-oriented workflows.

Freelance Software Engineer

March 2024 - Present

- Delivering full-stack solutions across multiple private and confidential client projects.
- Working with Java, Spring Boot, React, authentication systems, and Linux-based deployments.
- Managing end-to-end development cycles, from implementation to deployment.

Junior Software Engineer

MIP Holdings

June 2021 - July 2023

- Contributed to backend and automation-focused engineering tasks within a collaborative development environment.
- Gained early professional experience in structured software development and delivery workflows.

Quality Assurance Automation Engineer

Inspired Testing

March 2019 - August 2020

- Built and maintained automated test suites supporting backend and application reliability.
- Developed a strong foundation in system behaviour, edge cases, and software quality.

Service Ambassador (Part-Time)

Hussar Grill

August 2018 - Present

- Delivered consistent, high-quality customer service in a fast-paced environment, strengthening communication and problem-solving skills.
- Sustained a long-term part-time role alongside full-time employment and studies, demonstrating exceptional reliability, time management, and commitment.

PROJECTS

- Fiber Network Design (Current)
- University Student Management & Attendance System
- Facial Recognition & Campus Security Platform
- RFID Smart Card Hybrid Architecture
- Dual E-Commerce Platforms
- Polling & Analytics Platform

CAREER OBJECTIVE

Full-stack Software Engineer seeking to build secure, scalable web applications using Java, Spring Boot, React, and relational databases, with a strong interest in production deployment and modern authentication systems.

EDUCATION

National Senior Certificate

[Hoërskool Labori](#)
2014

Diploma / Degree in Application Development

[Cape Peninsula University of Technology \(CPUT\)](#)
January 2024 - Present

SKILLS

Languages

- Java
- JavaScript
- SQL
- Python

Frameworks & Platforms

- Spring Boot
- Spring Security
- React

Authentication & Security

- JWT
- OAuth2
- Role-based access control

Databases

- MySQL
- Relational schema design

DevOps & Deployment

- Linux server deployment
- REST API development

Tooling & Practices

- Git
- Agile / Scrum
- Modular & layered architectures
